RoboRoute Quick Start

A little robot. Six parcels. A village full of stickers.

1 Start your delivery day

Read the three short guide pages, then choose Let's deliver. You control the mint-colored robot, Sprout.

2 Find your parcel

Use WASD or the arrow keys. Follow the glowing dots to PICKUP. Press E or click the nearby action button.

3 Match the bay letter

Read the destination at the top. Go to BAY A, B or C, then press E. Matching the letter matters; a wrong bay keeps your parcel.

4 Keep your battery happy

If battery is low, follow the dots to RECHARGE and wait. Charging is automatic. Recover returns you to the dock but adds 30 seconds.

5 Finish and collect

Resolve six jobs to finish a shift. See your score and stars, then open the sticker book. Your collection and personal bests stay for the next shift.

Remember	Shortcut
Move / interact	WASD or arrows / E
Pause / help	ESC / Guide
Three stars	Deliver all six parcels
Stickers last	New shifts keep collected stickers
